Everything is designed for your

enjoyment

Discover your new  
**WOW** passions 😊

"Swimming is a sport capable of passing on values such as self-improvement, discipline, respect, solidarity, camaraderie, sporting competitiveness and, above all, persistence"

Margarita Ávila,  
**swimming instructor**

"As far as tennis is concerned, on average, only 10 classes are needed to acquire the basic knowledge of this sport. The rest is practice, refinement and technique that is acquired"

JPablo Chábarre,  
**tennis instructor**

"Any child that attends riding lessons can expect to learn to jog and gallop, to be safe on horseback, to lose their fear and enjoy the experience; and once they have mastered the sport, choose the style they prefer"

María Herranz Arribal,  
**horse riding instructor**

"My three best tips for playing football: leave complexity to one side, have enough stimulus to avoid discouragement from defeat and learn from mistakes and, above all, enjoy every minute of it"

Guillermo Revuelta,  
**coach of campus  
Experience Foundation  
Real Madrid**

"To ensure the enjoyment of the children at our camps, we constantly attend to their needs in a fun educational environment. Younger children tend to tire quickly and are easily distracted, which is why we design very dynamic activities and games which are rotated every 10 min. to maintain their interest and motivation"

María Fernández Arribas,  
**sports monitor**

## English

In a camp, playing is learning and encouraging social relationships, team work, contact with nature and the development of abilities and motor skills. It is not only the intellectual part and the acquisition of the theoretical content. A camp is a comprehensive education experience.

Sebastián Encina,  
**Coordinator of camps**

## King's Method

English classes are based on projects whose purpose is to avoid typical classroom classes. To do this we perform practical activities, guarantee that all communication is in English, and we seek interaction. It puts a lot of emphasis on playfulness and oral communication.

## Safety

The safety of every pupil is our priority

1 monitor/teacher for every 10 children

# English for the little ones

Their first great step  
towards bilingualism!  
Fun with maximum  
safety at all times!

**Ages:** 2-7 (Chamartín), 3-6 (rest of locations)  June, July and August (from 1 a 6 weeks)

## PROGRAMME

Our programme has been specifically designed for the little ones, as it is divided into blocks of fun and dynamic activities (singing, dancing, handicrafts, theatre, workshops and games) through which the children rotate; that way we get them to keep their motivation and enthusiasm, avoiding distractions and loss of interest. This age category is the prime time for the children to assimilate knowledge in an efficient way. In this camp they won't only learn English in a natural end effortless way, but also to socialise and interact, to express and communicate, to get along, to be more tolerant and independent, as well as improving their self esteem and gaining self-assurance. We pay special attention to the integration of the shy ones.

## ENGLISH

In addition to the classes, the whole camp is conducted in English. These groups are formed by age. Pupils can take part with either a basic, intermediate or advanced level of English.

## ACTIVITIES

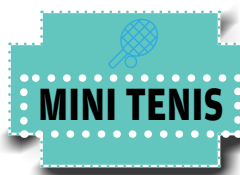

For the youngest learners of English, we work to create a pleasant and stimulating atmosphere through games and the use of stories, handicrafts, theatre or dance.

### OPTIONAL ACTIVITIES

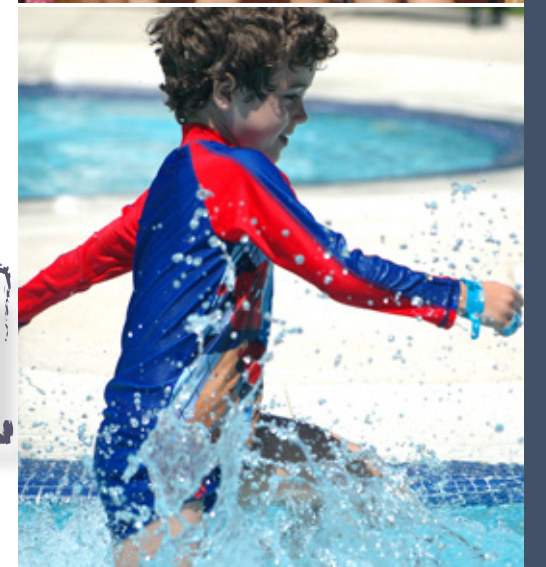

**SOTO:** Swimming and mini tennis

**SWIMMING**

**MINI TENIS**

The Chamartín camp is ideal for the youngest children. We offer a nappy changing service:)

## INCLUDES:

- Native teachers
- 20 English classes a week according to course chosen
- Food according to course chosen
- Continuous monitoring of pupils
- Activities and sports programme
- Full insurance cover
- Class Dojo

## OPTIONAL SERVICES

**SOTO:** Collection service, extended hours

**CHAMARTÍN:** Extended hours, nappy changing

**LA MORALEJA:** Extended hours and collection service

## THE CAMP

The first step towards bilingualism and the personal and social development of children. Your little ones will discover the world and develop their motor skills in English while they practice creative and fun hands-on activities, stimulating their curiosity and their ability to learn. By feeling welcome, safe and happy, their linguistic capacities will flourish, acquiring English like natives do.

## LOCATION

King's College Soto de Viñuelas, Madrid

King's College La Moraleja, Madrid

King's College Chamartín, Madrid

The best stage for our 'little Miss Sunshines' and 'little Mr. Men' to be introduced into bilingualism.

Children have the opportunity to enjoy a variety of dynamic activities that encourage creativity and through which they will learn to be more sociable and participative, becoming their best version.

« The ideal formula to teach English to the little ones is through games and songs. Children grasp the language very quickly when they are immersed in a native environment, especially the accent »

What our pupils say:

## English and Theatre

When I came to the theatre camp I wanted to learn to speak louder, to say things clearly, to dance better and to interpret; this camp has met all my expectations and in addition I am now much more sociable

*Andrea De Juan*

## English and sports

I've been going to the English and Sports camp with my sister for five years, and we would love to return next year. It is a very fun camp, the instructors are great, the teachers teach you English and help you all the time; you make a lot of friends. But without a doubt, the best thing is that you can ride a horse, so my sister and I have repeated this so many years because we love it

*Raquel Arroyo*

## Spanish and Football

In this camp I have learned new football techniques and tricks, improved my level of Spanish and, above all, this experience has helped me to discover my limits, what I'm good at and what not, how to improve it, and I left knowing myself better
